

Dear Parent / Guardian

Thank you for considering Kelmscott Senior High School for your child's high school education.

Kelmscott Senior High School is a school of opportunity for students. The school offers Department of Education endorsed Specialist Programs in Agriculture and Music, Gifted & Talented Secondary Selective Entrance Program and a range of Kelmscott Academic Academy (KAA) in Mathematics, Science, English and Humanities & Social Sciences. We are only one of two schools who provide Gifted & Talented Online to rural areas. Given our broad offerings we attract students from Martin to Mandurah to North Beach.

In addition, the school offers a suite of school-based programs in rowing, languages, soccer and athletics to cater for a range of student interests and abilities. All this occurs in excellent facilities with a strong focus on pastoral care.

Former students have achieved recognition in the fields of medicine, law, engineering, drama, music and sport. Successful former students now offer scholarships to current high achieving Kelmscott students. The school is regularly recognised by the School Curriculum and Standards Authority (SCSA) for outstanding achievement or graduating Year 12 students, along with our students being selected to represent the state for a range of academic and sporting pursuits.

The Kelmscott Senior High School community is ethnically and economically diverse, which is a significant strength. We enjoy the support of parents, business and government agencies in the provision of education programs. We also have partnerships with the University of Western Australia, Curtin University and Murdoch University to channel aspiration of students for tertiary education.

Once again thank you for considering Kelmscott Senior High School.

Yours sincerely,

Mark Jeffery
Principal
